

Edge Hardware Range

Premium hardware for Commercial and Residential applications

Hinge Door Lock

The Edge suite is headlined by the Induro lock, paired with the exclusive Edge handles which is exclusively sold by Concept Architectural Systems.

The suit comes standard with 4-point locking and is sold in a kit with 6 component that can be interchanged with accompanying products in the Edge range.

A key feature is the locks turn snib cylinder which allows the door to be locked and unlocked from inside without a key. The induro lock can be paired with all Concept hinge doors as well as the Bi-Fold door, this includes French/double doors.

Twin Bolt Locks

The Edge Twin-Bolt Lock is a stylish handle driven twin-bolt locking system which is quickly and easily fitted to the Bi-Fold stiles and allows the top and bottom locking rods to be engaged/disengaged with a single action rather than having to manually operate the top and bottom flush bolts individually. The Twin-Bolt is an efficient solution for taller doors where flush bolts are not viable.

The Edge Twin bolt locks are available in locking and non locking styles. The Twin Bolt Locks are sold in kits which come equipped with the lock (in either black or satin chrome) and rod-kit.
