

Wood Grain Finishing

THE SUSTAINABLE CHOICE

Introducing Wood Grain Finishing

We offer Altwood's wood grain finishing across our entire range of products. Altwood's collection of finishes has been developed specifically for the Australian market. From classic, native timbers, to rare and exotic varieties from all around the world, we have assembled a beautiful range of authentic woodgrain finishes to make your project stand out.

Benefits

Sustainable	Helps eliminate timber logging with 100% recyclable aluminium.
Non-Combustible	Manufactured to meet fire propagation standards.
Insect Proof	Not susceptible to termite damage.
Non-Warping	Does not warp or bend over time.
Colour stable	Altwood can achieve 20 year colour stability.
Robust	Altwood will withstand all reasonable force and not show chipping, flaking or peeling as per AS3715 standards.
Corrosion Resistant	Aluminium is the least corrosive metal, further improved with a powder coating treatment.
Maintenance	Altwood is easy to maintain and washable with warm water.
